

Parents and students experienced children's ministry programming together during the month of October. Parents participated in large group worship, lessons, and small group with their children. On Wednesday night, children are ***Digging into the Life of Jesus*** and on Sunday morning children are walking through the ***Bible in One Year***.

On October 8th, third grade parents and their children were introduced to the ***Hands On Bible*** in a class together. Children learned how the books of the Bible are organized, searched for Bible verses, and completed activities from the Bible together. Third grade students received their Bibles during worship on October 15th as we all learned about Sola Scriptura -- by scripture alone.

A few special guests joined Wednesday night programming this month. Mulle Demissie and Ababech Sambo shared their experience in Ethiopia with children.

Children were very interested in the experience of children in Ethiopia, especially since Lily (our Compassion child) is from Ethiopia.

While experiencing the lesson with the Bible point ***Jesus Calms our Fears***, Nick Mohwinkle and Chris Nelson, area school counselors, visited with their therapy dogs, Tully and Fendi. Therapy dogs are one way that God provides for us to calm our fears. Below are some pictures from the evening.
